SYNOPSIS OF MANDATORY GUIDELINES GOVERNMENT OF INDIA

IN ACCORDANCE WITH MINISTRY OF HEALTH AND FAMILY WELFARE & MINISTRY OF TEXTILES
GOVERNMENT OF INDIA
(MEMORANDUM DATED 6TH APRIL, 16TH APRIL AND 22ND APRIL)

1

Some instances have come to the notice of this Ministry, where Manufacturers / Suppliers whose proto-type samples for Body Coveralls for COVID-19 have failed laboratory tests, are still supplying their Personal Protection Equipment (PPE) Body Coveralls in the market.

2

As of now, there are two laboratories in the country which have the facilities as well as necessary approvals, for conducting tests on Body Coveralls (PPE) required for COVID-19. These are; South India Textiles Research Association (SITRA), Coimbatore; and Defence Research & Development Establishment (DRDE), Gwalior.

3

For each test conducted at SITRA in respect of a fabric and the PPE garments, for which proto-type samples are sent by the respective manufacturers, SITRA will generate a Unique Certification Code (UCC-COVID 19).

4

The PPE Garment (Body Coveralls for COVID-19) manufacturer will manufacture Coveralls in accordance with the materials and workmanship as per the tested and certified prototype sample, which is linked with the UCC-COVID 19.

5

The PPE (Body Coverall for COVID-19) garment manufacturer will either print in indelible ink, or stick a tamper-proof sticker, on the body of the garment on the inside of the PPE with the following particulars;

- (i) Name of Manufacturer;
- (ii) SITRA /DRDE Unique Certification Code (UCC)
- (iii) Test Standard
- (iv) Date of Manufacturing / Batch Number

THE HIGH PERFORMANCE PERSONAL PROTECTIVE EQUIPMENT

PRODUCT OFFERING

Key features
